

I

get

a

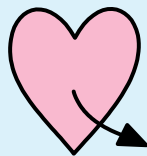

test

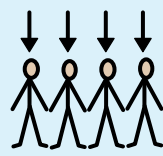

My

school

wants

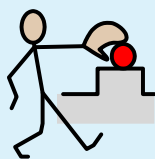

everyone

to be

safe.

I will

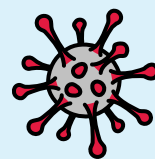

get

a

test

for

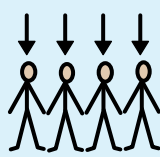

coronavirus.

Tests

help

everyone

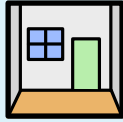

to

keep safe.

My Turn for a Test

I go to the test room.

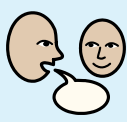

I wash and dry my hands.

I can ask an adult for help.

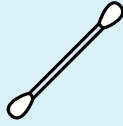

I can ask questions.

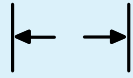

I can say if I am worried.

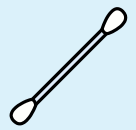

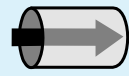

Adults will wear a face mask.

An adult has the swab.

I open my mouth wide.

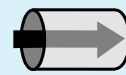

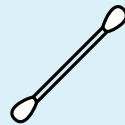

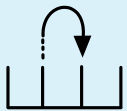

The adult rubs inside my mouth with the swab.

It tickles.

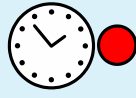

It will finish fast.

Next an adult rubs the swab inside my nose.

Then I have finished my test.

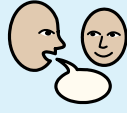

After my test

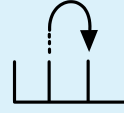

An adult

will

say

what happens

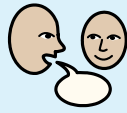

next.

An adult

will

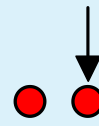

say

if I

need

another

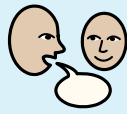

test.

An adult

will

say

if

I can

go back to my

classroom.

Thank you

for

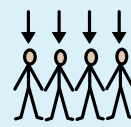

helping

to

keep

everyone

safe.
